WORK EXPERIENCE

Software Engineer, CFM Core Integration Experts

Tempe, Arizona • December, 2021 — Present

- Design and implement low-latency, highly available, and performant applications, APIs, and device integration.
- Actively understand solutions architecture and design.
- Proactively identify and address areas of material improvement dealing with security, scalability, and performance.
- Implement data protection and security.
- Provide input on architectural decisions for distributed systems in the context of financial/banking applications that require strong consistency, high-availability and scale.
- Develop complex features, design unit test cases, execute unit tests, and prepare release documentation relevant to requirements.
- Create both high- and low-level design documentation for software.
- Attend daily stand-ups for Agile sprint cycles and post updates to Microsoft Teams.
- Provide technical expertise to resolve challenging programming and design problems.
- Perform Jira tasks as assigned and complete preplanned sprint cycles in accordance with the Agile Software Development life cycle.
- Create diagrams of software including UMLs, Wireframes, EERs, and Sitemaps.

Paralegal NCIOC, Army National Guard

Phoenix, Arizona • July, 2014 — July 2023

- Platoon Sergeant that manages and supervises up to 15 subordinate Soldiers within the Office of the State Judge Advocate for the Arizona Army National Guard.
- Deployed on a combat deployment to Afghanistan and another deployment to Kuwait in support of Iraq operations.
- NCOIC of OGS legal office in support of Customs and Border Protection.
- Conduct numerous legal assistance cases for immigration law, family law, fiscal law, environmental law, line of duty injuries, SCRA, and USERRA matters.
- Track all investigations, billing hours, appointments, scheduling, projects for the office and interviewed and transcribed witness statements.
- Guided Investigating Officers with technical aspects of their investigations, and compiled their findings into comprehensible final products using Adobe Pro.
- Provided training the Brigade for Law of Armed Conflict, Rules of Engagement, Mandatory Reporting, General Order #1, Law of War, Evidence Handling, Investigating Officer Training, and Human Trafficking.
